

QuickSuite® and Floor Safety

Moisture management and floor safety product catalogue

**Improve
efficiency.
Promote
safety.**

Medline's moisture management solution

As a global provider of comprehensive moisture management solutions, Medline fulfils the needs of facilities like yours by offering a wide range of high-quality and cost-effective products that fully meet clinical requirements.

Choosing a moisture management system is not only an important step in providing the best and most efficient care possible, but it is also fundamental in ensuring the protection of equipment.

QuickSuite's Sahara operating table sheets are designed to manage moisture and optimise the operating theatre workflow. They help reduce clean-up time by absorbing and retaining fluids during procedures and keeping the patient and equipment dry.

With a variety of QuickSuite accessories, customisable QuickSuite kits and Liqui-Loc™ floor mats, the possibilities are endless for perfectly tailoring your moisture management solution to your needs.

A photograph of an operating theatre table. The table is covered with a white sterile drape. A blue sterile drape is draped over the side of the table, and a blue sterile drape is draped over the end of the table. A blue sterile drape is also draped over the arm of the table, which is secured with a white strap. The table is positioned on a blue floor. The background is a plain white wall.

optimise the
operating theatre
workflow**

Sahara operating table sheets

Boost efficiency. Promote safety. Lower costs.

Medline's Sahara operating table sheets have a wicking function paired with an impervious backing, which promotes effective moisture management and the optimisation of the operating table's lifespan.

- Quilted top layer made of non-woven polypropylene to ensure comfort and reduce linting
- Middle absorbent layer reinforced by core polymer technology that rapidly wicks moisture away, maintaining skin integrity
- Impervious bottom layer that keeps all fluids away from the operating table

1**Boost efficiency**

Allows for quick and efficient setup and cleaning of the operating table

2**Increase comfort**

Keeps the patient dry and comfortable

3**Lower costs**

Eliminates laundering costs and replacement costs for linens and operating table pads

Sahara operating table sheets

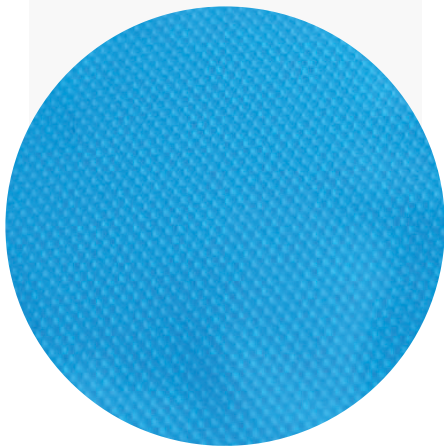

Choose the solution that suits you best.

Select the Sahara operating table sheet that best suits your needs in terms of absorbency and patient positioning. With a variety of product options, you can choose the most appropriately sized surgical table cover to help you protect the operating table.

Sahara operating table sheets are available in a variety of configurations to meet your needs for different procedures, and come with two types of backings:

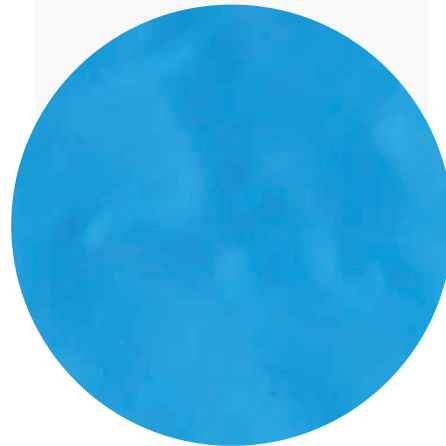

Grippy backing

Textured polyethylene that increases the friction between the sheet and the operating table's surface

Standard backing

Smooth polyethylene that allows for increased manoeuvrability

Sahara operating table short sheets

Designed for lithotomy positioning

Sahara super absorbent operating table sheet (short)

Grippy

This shorter sheet has been designed for gynaecological and urological procedures.

102 x 152 cm | Reference: DYND4060SBE

Sahara operating table long sheets

Designed for supine positioning

Sahara super absorbent operating table sheet (long)

Grippy

This sheet is ideal for low- to medium-fluid procedures lasting less than three hours.

102 x 229 cm | Reference: DYND4090SBE

Sahara fitted operating table sheet

Grippy

This fitted sheet has been designed for a better grip on the table, stretcher or gurney.

102 x 229 cm | Reference: DYNDE4090FTD

Sahara protective operating table sheet

Grippy

This non-absorbent sheet can be used for short, low-fluid surgical procedures.

102 x 229 cm | Reference: DYND4090NA

Sahara Essential operating table sheet

Grippy

This eco-friendly sheet provides an ideal solution for less invasive surgical procedures with low to moderate fluid usage.

80 x 220 cm | Reference: SL80220E

Sahara economy operating table sheet

Standard

This sheet is ideal for low- to medium-fluid procedures lasting less than three hours.

102 x 229 cm | Reference: DYND4090E

Item number	Description	Backing	Size	Packaging
DYND4090SBE	Sahara super absorbent operating table sheet (long)	Grippy	102 x 229 cm	20/cs

QuickSuite accessories

A variety of products to complete your moisture management solution

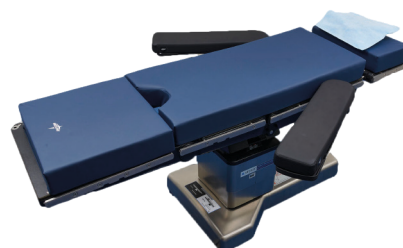

In addition to the Sahara operating table sheets, Medline offers other components to complete your moisture management solution and ensure patient comfort and modesty during examinations and surgeries, in the perioperative and post-operative periods.

Operating table protection

Head positioning cover

This cover is available in two sizes and helps protect the operating table headboard from being damaged.

38 x 39 cm | Reference: DYKQSHPC1CEA

45 x 55 cm | Reference: QSHPC

Arm board cover with strap

This cover helps protect operating table arm boards from being damaged, and is available in a standard and fitted version.

Standard | 72.5 x 33.5 cm | Reference: QSACOVER

Fitted | 75 x 39 cm | Reference: QSACEL01

Patient positioning

Patient body strap

This solution ensures safe patient positioning while they are on the operating table.

10 x 83.5 cm | Reference: ORS01

Draw/lift sheets

These lift sheets are available in a variety of weight options, and with or without handles. They are optimal for repositioning and transferring patients to and from the operating table.

≥ 224 kg | Without handles | 152 x 198 cm | Reference: DYNDDS6078E

≥ 200 kg | Without handles | 102 x 152 cm | Reference: DYNDDS4060E

≥ 220 kg | With handles (can be used for overhead lifting) | 90 x 175 cm (including handles) | Reference: QSL501

Item number	Description	Size	Packaging
DYKQSHPC1CEA	Head positioning cover	38 x 39 cm	300/cs

A photograph showing the lower half of a person wearing blue medical scrubs and blue slip-on shoes. They are standing on a white, wrinkled cloth that is laid out on a light-colored floor. To the right, a portion of a medical table with a blue draped top is visible. The scene is brightly lit, suggesting an operating theatre environment.

workflow**

Floor safety products

Working in wet environments means being exposed to hazards, including slips and falls. Wet floors can compromise care and add additional challenges for healthcare facilities and staff.

Risk environments:

Operating theatre
and lab stations

Examination
rooms

Scrub sink
areas

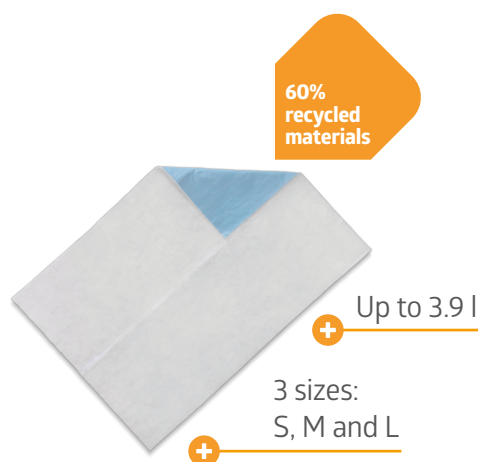

Maternity
wards

Central sterilisation
areas

Liqui-Loc™ floor mat

- **Impervious anti-slip back**
- **Drip-safe**, locking in fluids to avoid cross-contamination and complicated handling
- **Easy disposal** for hygiene and safety
- For:
 - Standing and placing tools on
 - Placement in staff-patient proximity areas (operating table, examination room, scrub sinks)
 - Use where large volumes of fluid are generated (gynaecology, urology, arthroscopy)

Item number	Description	Size	Absorbency	Anti-slip	Packaging
ORLLPBS	Liqui-Loc - small	71.1 x 101.6 cm	2.2 l	Yes	13/cs
ORLLPBM	Liqui-Loc - medium	71.1 x 142.2 cm	3.0 l	Yes	10/cs
ORLLPBL	Liqui-Loc - large	71.1 x 182.8 cm	3.9 l	Yes	8/cs

Double-sided floor pad

- **Absorbs on both sides** to contain a higher volume of fluids
- **Is drip-safe**, locking in fluids to avoid cross-contamination and ease disposal
- **Speeds up the cleaning process** and absorbs fluid spills on the floor
- **Improves the overall level of hygiene**, which promotes cost and time savings
- **Do not stand on**

Item number	Description	Size	Absorbency	Anti-slip	Packaging
ORDSFMAT	Double-sided floor pad	75 x 38 cm	7 l	No	50/cs

Advance your operating theatre.

Promote safety

Lower the risk of cross-contamination with the Sahara absorbent theatre table sheet.

Improve efficiency

Reduce the time it takes to turn over your operating theatre with easy, customisable kits.

Reduce costs

Eliminate waste with custom-made kits and avoid the associated costs of reusable linens.
